NEW HOMEPAGE

Hero — says what you do in one line, with Book and Call buttons	Photo 1
Trust strip — since 2008, HPCSA, OMPTG, practice no., Pilates instructor	
What I can help with — 4 special interests + common reasons people come in	Clearer
Body & mind — how stress shows up in the body, and how physio helps	New
How I treat — dry needling, strapping, massage, home visits, each with a photo	Photos 3–6
Not sure physio can help? — WhatsApp or call	New
Your first visit — 3 simple steps, so nervous first-timers know what to expect	New
About Hayley — warmer first-person bio, experience as an easy list	Photo 10
Why patients come back — your real 5-star Google reviews	New
Visit the practice — photos of the space, hours, fees & medical aid, parking, cancellations	Photos 7–9
Let's get you moving again — book online, WhatsApp, call, directions	
Footer — contact, affiliation logos, practice number	

7 key improvements

	TODAY	NEW	WHY IT MATTERS
1	"Welcome to…" over a faded, hard-to-read image	Says straight away what you do and who you help, with Book and Call buttons	People decide in seconds whether to stay — they need to know you can help them immediately.
2	Services split between a long "What is physio" text and unlabelled photos	Clear special interests, common problems you treat, and labelled treatments	People search by their problem ("shoulder pain"), not treatment names — and it helps you show up on Google.
3	Mental health not mentioned	A dedicated Body & mind section	Reaches people with stress-related pain who wouldn't think of physio — and sets you apart.
4	No reviews; credentials hidden at the bottom	Your 5-star Google reviews, years in practice and registrations near the top	Patients trust other patients' words more than anything a practice says about itself.
5	No hours, fees, medical aid or cancellation info	All practical info in one place, plus a "Your first visit" guide	Answers questions before they're asked — fewer calls and messages for you, less hesitation for patients.
6	Contact details only at the very bottom	Book online, WhatsApp, call and directions throughout the page	The easier it is to book — especially on a phone — the more people actually do.
7	Small grey text, older photos, 2018 copyright	Larger, clearer text, a calm green palette, new photos of you and the practice	Feels current and cared for — and is easier to read for every patient, including older ones.

Next steps
